

"Clients often come to us with a specific accounting software need that we aren't able to provide to them out of the box. KKL has been the perfect development partner for us. On numerous occasions, they have developed brilliant turn key business solutions for many unique businesses. The clients have been very happy with the results as their first rate solutions have often gone beyond client expectations and always came in on time and on budget."

- Mike Pendred

Seamless, instantaneous integration ▼

Start Saving Time and Money. Available Now!

Exonet Integration with Microsoft CRM delivers you a complete business management system. More information at your fingertips equates to better business decisions.

Benefits:

- Drive sales using a single overview of your clients by bridging the gap between disparate information systems.
- Save time and reduce errors by eliminating double data entry.
- Address customer needs more quickly and have them coming back to you time and again to improve your bottom line.

System Requirements:

- Microsoft CRM Version 4.0 +
- Microsoft SQL Server 2005 +
- Exonet 7 +
- Available CRM license for synchronisation

Pricing:

- \$5,995 + GST
- No per-seat fees!

Annual license fee:

- \$895 + GST per year.
- This includes unlimited support, fixes and upgrades
- Additional customisation: \$150/hr

If you require Microsoft CRM, KKL is also able to supply and install this software package for you.

CRMConnect 2.0 Features:

- Synchronise accounts, contacts and job costing in both directions.
- All fields synchronised; head office, address, email etc.
- Create, delete, deactivate and update in either CRM or Exonet. Changes will be reflected in the other application.
- Ability to create custom fields for information stored in Exonet you really want to see in CRM.
- Map sales team members between CRM and Exonet.
- Create quotes, orders, invoices and products in Exonet and view them in CRM. A must for creating marketing lists and campaigns!

Enjoy unparalleled integration between the powerful MYOB Exonet and Microsoft CRM applications. Gain a competitive advantage! For Demo go to:
